Established date : 2017

Our Clients : Meizan, Cocacola, Ooredoo, MIB, Southern Cable, Adidas,
Fortune Channel, MDG & etc...

Benefits of digital printing :

Jobs can be produced within a quick timeframe.

Digital printing is cost effective on short runs.

Digital Printing allows us to produce smaller runs to test your promotion material, which lets you be sure of your marketing before you print thousands of copies. Digital printing helps the environment as it reduces wastage. There is minimal paper lost on setting up and we only print what is needed.

Artwork has to go through far less scrutiny with digital machines as they are much more accurate. Creating your artwork in RGB and non-compliant colours is no problem - digital printing can easily print these formats.

Every item can be personalized as each sheet printed is an original.

Digital printing saves the potentially costly effect of having thousands of items produced only to find out that the information is out of date.

By only printing what you need when you need it (on demand) we can alter every run if needed.

There's no need to store thousands of catalogues, we can print the exact number when they are required.

Our Vision :

The Print Group Myanmar endeavours to become recognised as the benchmark of outstanding service, not just in the printing industry but across all industries.

We pride ourselves on bringing results that count in everything that we set out to do and we are constantly striving for successful outcomes in all areas of our business.
